BIOMETRIKA

A JOURNAL FOR THE STATISTICAL STUDY OF BIOLOGICAL PROBLEMS

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

EDITED BY

KARL PEARSON

ASSISTED BY

EGON SHARPE PEARSON

VOLUME XXII

1930—1931

ISSUED BY THE BIOMETRIC LABORATORY
UNIVERSITY COLLEGE, LONDON
AND PRINTED AT THE
UNIVERSITY PRESS, CAMBRIDGE

PRINTED IN GREAT BRITAIN

104/5

Science
Fexon

CONTENTS OF VOLUME XXII

Memoirs

		PAGE
I.	Tables for determining the Volumes of a Bi-variate Normal Surface.	
	(i) Introduction to the Tables. EDITORIAL	1
	(ii) Tables for $r = \cdot 00$ to $- \cdot 75$. Computed by ETHEL M. ELDERTON, MARGARET MOUL, E. C. FIELLER, S. J. PRETORIUS and A. E. R. CHURCH	12
II.	A Theory of the Sampling Distribution of Standard Deviations. By T. KONDO	36
III.	A Study of Seventy-one Ninth Dynasty Egyptian Skulls from Sedment. By T. L. WOO	65
IV.	A Statistical Study of certain Anthropometric Measurements from Sweden. By P. C. MAHALANOBIS	94
V.	Skew Bi-variate Frequency Surfaces, examined in the light of Numerical Illustrations. By S. J. PRETORIUS	109
VI.	The Derivation of Certain High Order Sampling Product Moments from a Normal Population. By JOHN WISHART	224
VII.	A Further Development of Tests for Normality. By EGON S. PEARSON	239
VIII.	Tables of the Probability Integrals of Symmetrical Frequency Curves in the case of Low Powers such as arise in the Theory of Small Samples. By KARL PEARSON, assisted by BRENDA STOESSIGER .	253
IX.	On the Application of Continued Fractions to the Evaluation of certain Integrals, with Special Reference to the Incomplete Beta-Function. By J. H. MÜLLER	284
X.	Further Notes on the χ^2 Distribution. By J. NEYMAN and EGON S. PEARSON	298
XI.	Table of the Values of the Differences of the Powers of Zero. By ETHEL M. ELDERTON and MARGARET MOUL	306
XII.	On the Relation of the Duration of Pregnancy to Size of Litter and other Characters in Bitches. By MARGARET and KARL PEARSON	309
XIII.	On the Asymmetry of the Human Skull. By T. L. WOO . .	324

PAGE

XIV. The Mean and Second Moment Coefficient of the Multiple Correlation Coefficient, in Samples from a Normal Population. By JOHN WISHART 353

XV. Appendix to a paper by Dr Wishart. Tables of the Mean Value and Squared Standard Deviation of a Multiple Correlation Coefficient. EDITORIAL 362

XVI. Table of Functions of the Normal Curve to ten decimal places. By T. KONDO and ETHEL M. ELDERTON 368

XVII. The Duration of Play. By E. C. FIELLER 377

XVIII. On the Nature of the Relationship between two of "Student's" Variates (z_1 and z_2) when Samples are taken from a Bi-variate Normal Population. By KARL PEARSON 405

Miscellanea

(i) An Unusual Frequency Distribution—The Term of Abortion. By THOS. VIBERT PEARCE 250

(ii) Note on Tests for Normality. By EGON S. PEARSON . . 423

(iii) *Some recent Researches in the Theory of Statistics and Actuarial Science.* By J. F. STEFFENSEN. Review by G. UDNY YULE . 424

(iv) A Problem in Probability. By E. C. FIELLER 425

List of Plates, etc.

Biometrika Portrait Series, No. VII. Tschebyschew . . *Frontispiece*

(α) *T. L. Woo:* Seventy-one Ninth Dynasty Egyptian Skulls from Sedment.

Plate I. Normal Sedment Egyptian Skulls. A, female, B, male. *Norma facialis* . . . . . *to face page* 90

Plate II. Ditto. *Norma lateralis* . . . . . „ „ „

Plate III. Ditto. *Norma verticalis* . . . . . „ „ „

Plate IV. Ditto. *Norma occipitalis* . . . . . „ „ „

Plate V. Anomalous Sedment Egyptian Skulls . . . . „ „ „

Folding Tables of Measurements of Sedment Egyptian Skulls . „ „ 92

(β) *P. C. Mahalanobis:* A Statistical Study of certain Anthropometric Measurements from Sweden.

Folding Tables of Mean Values and Coefficients of Racial Likeness . . . . . *to face page* 96
